

## ***Scientific bibliography (1981- 1993)***

---

1. Newlin, S.A., Mancillas-Trevino, J., and Bloom, F.E. (1981) Ethanol causes increases in excitation and inhibition in area CA3 of the dorsal hippocampus. *Brain Res.*, 209: 123-128.
2. Mancillas, J.R., McGinty, J.F., Selverston, A.I., Karten, H., and Bloom, F.E. (1981) Immunocytochemical localization of enkephalin and substance P in retina and eyestalk neurones of lobster. *Nature*, 293: 576-578.
3. Mancillas, J.R., and Brown, M.R. (1984) Neuropeptide modulation of photosensitivity. I. Presence, distribution and characterization of a substance P-like peptide in the lateral eye of *Limulus*. *J. Neurosci.*, 4: 832-846.
4. Mancillas, J.R., and Selverston, A.I. (1984) Neuropeptide modulation of photosensitivity. II. Physiological and anatomical effects of substance P on the lateral eye of *Limulus*. *J. Neurosci.*, 4: 847-859.
5. Mancillas, J.R., and Selverston, A.I. (1985) Substance P-like immunoreactivity is present in the central nervous system of *Limulus*. *J. Comp. Neurol.*, 238: 38-52.
6. Bloom, F.E., Battenberg, E., Ferron, A., Mancillas, J.R., Milner, R.J., Siggins, G.R., and Sutcliffe, J.G. (1985) Neuropeptides: Interactions and diversities. In: *Recent Progress in Hormone Research*, R. Greep (ed.). Academic Press, New York, 41: 339-367.
7. Mancillas, J.R. (1986) Modulation and level-setting in the horse-shoe crab (*Limulus polyphemus*) by a substance P-like peptide. In: *CRC Handbook of Comparative Opioid and Related Neuropeptide Mechanisms*. Vol. II, G.B. Stefano (ed.). CRC Press, Boca Raton, FL, pp. 117-128.
8. Mancillas, J.R., Siggins, G.R., and Bloom, F.E. (1986) Systemic ethanol: Selective enhancement of responses to acetylcholine and somatostatin in the rat hippocampus. *Science*, 231: 161-163.
9. Mancillas, J.R., Siggins, G.R., and Bloom, F.E. (1986) Somatostatin selectively enhances acetylcholine-induced excitations in rat hippocampus and cortex. *Proc. Natl. Acad. Sci. (USA)*, 83: 7518-7521.
10. Bloom, F.E., Battenberg, E., Ferron, A., Mancillas, J.R., Milner, R.J., Siggins, G.R., and Sutcliffe, J.G. (1987) Transmitter synergism and diversity. In: *New Insights into Synaptic Function*, G.M. Edelman, W.E. Gall and W.M. Cowan (eds.). Wiley & Sons, New York, pp. 289-302.
11. Siggins, G.R., Bloom, F.E., French, E.D., Madamba, S.G., Mancillas, J.R., Pittman, Q.J., and Rogers, J. (1987) Electrophysiology of ethanol on central neurons. *Ann. N.Y. Acad. Sci.*, 492: 350-366.
12. Siggins, G.R., Ferron, A., Mancillas, J.R., Madamba, S., and Bloom, F.E. (1987) Interactions of peptides and monoamines in central neurons; Role of second messengers. In: *Receptor-Receptor Interactions: A New Intramembrane Integrative Mechanism*, Wenner-Gren Ctr. Int. Symp. Series. MacMillan Press, Hampshire, U.K., pp. 13-22.
13. Olsen, R.W., Smith, G., Sofer, A., Deng L, Nielsen, M., Lunt, G., Ruiz, A., Mancillas J. and Tobin A.J. (1991) Comparison of subunits and binding sites in GABAA receptors of mammals, lower vertebrates and invertebrates. *J. Neurochem.* 57 supp. S2.
14. Yamuy, J., Mancillas, J.R., Tran, R.T., Morales, F.R. and Chase, M.H. (1991) C-fos like expression in the lumbar spinal cord of the cat during carbachol-induced atonia. *Sleep Research* 20A: 76.
15. Yamuy, J., Mancillas, J.R., Morales, F.R. and Chase, M.H. (1993) C-fos expression in the pons and medulla of the cat during carbachol-induced active sleep. *J. Neuroscience*, 13 (6): 2703-2718
16. Patel, N., Thierry-Mieg, D, and Mancillas, J.R. (1993) Cloning by insertional mutagenesis of a cDNA encoding C. elegans kinesin heavy chain. *Proc. Natl. Acad. Sci. (USA)* 90: 9181-9185.

- 17.- Steven, R., Kubiseski, T., Zheng, H., Kulkarni, S., Mancillas, J., Ruiz Morales, A., Hogue, C.W.V., Pawson, T. and Culotti, J. (1998) UNC-73 activates the Rac GTPase and is required for cell and growth cone migration in *C. elegans*. *Cell* 92, 785-795.

## Abstracts

1. Mancillas, J.R., McGinty, J.F., and Selverston, A.I. (1980) A neuroactive factor from the lobster sinus gland modulates the spontaneous activity of identified neural networks. *Soc. Neurosci. Abstr.*, 6: 703.
2. Mancillas, J.R., McGinty, J.F., and Selverston, A.I. (1981) Distribution of enkephalin, substance P and serotonin immunoreactivity in the visual system of the lobster, crayfish and horseshoe crab. *Soc. Neurosci. Abstr.*, 7: 223.
3. Mancillas, J.R., and Selverston, A.I. (1982) Substance P mediates changes in sensitivity of the lateral eye of *Limulus*. *Soc. Neurosci. Abstr.*, 8: 285.
4. Mancillas, J.R., and Selverston, A.I. (1983) A substance P-like peptide modulates sensory and cardiac activity in *Limulus*. *Soc. Neurosci. Abstr.*, 9: 19.
5. Mancillas, J.R. (1983) A substance P-like peptide modulates photosensitivity in the lateral eye of *Limulus*. *The Physiologist*, 4: 111.
6. Mancillas, J.R., Siggins, G.R., and Bloom, F.E. (1984) Effects of systemic ethanol on responses of hippocampal units to ionophoretically applied neurotransmitters. *Soc. Neurosci. Abstr.*, 10: 968.
7. Mancillas, J.R. (1985) Ethanol potentiates neuronal responses to acetylcholine (ACH) and somatostatin 14 (SS-14) but not GABA. *Alcohol Clin. Exp. Res.*, 9: 203.
8. Mancillas, J.R., Siggins, G.R., and Bloom, F.E. (1985) Somatostatin-14 directly depresses neuronal discharge but enhances excitatory responses to acetylcholine in the rat cortex and hippocampus. *Soc. Neurosci. Abstr.*, 11: 341.
9. Mancillas, J.R. (1987) Mutations affecting backward movement in the nematode *C. elegans*. *Neuroscience*, 22, S236.
10. Mancillas, J.R. and Thierry-Mieg, D. (1989) Molecular cloning of unc-116, a gene affecting guidance in *C. elegans*. *C. elegans Int. Mtg. Abstr.*, 6: 164.
11. Mancillas, J.R. and Thierry-Mieg, D. (1989) Molecular cloning of unc-116, a gene involved in axonal guidance in *C. elegans*. *Neurosci. Abstr.*, 15: 649.
12. Patel N. and Mancillas, J.R. Unc-116, a gene involved in providing positional information for axonal guidance during *C. elegans* neural development. *Soc. Neurosci. Abstr.* 16: 810, 1990.
13. Ruiz, A., Mancillas J.R. and Olsen, R. GABA receptor function is altered in unc-49. *C. elegans Int. Mtg. Abstr.* 7: 276, 1991.
14. Patel, N. and Mancillas J.R. Cloning and characterization of unc-116, a putative kinesin-like molecule. *C. elegans Int. Mtg. Abstr.* 7: 131, 1991.
15. Steven, R., Ruiz, A., Mancillas, J.R. and Culotti, J. The axon guidance gene unc-73. *C. elegans Int. Mtg. Abstr.* 7: 303, 1991.
16. Patel, N., de Feo, G. and Mancillas, J.R. Unc-116 encodes *C. elegans* kinesin. *Soc. Neurosci. Abstr.* 17: 58, 1991.
17. de Feo, G., Patel, N. and Mancillas, J.R. Unc-116 a mutant in the *C. elegans* kinesin homolog has specific nervous system defects. *Soc. Neurosci. Abstr.* 17: 58, 1991.

18. Mancillas, J.R. and Ruiz, A. GABA receptor function is altered in the *C. elegans* mutant *unc-49*. Soc. Neurosci. Abstr. 17: 526, 1991.
19. Aguilar, Z., Piros, E., Maidment, N., Mancillas J.R. and Evans, C.J. Opioid immunoreactivity in the nervous system of *C. elegans*. Soc. Neurosci. Abstr. 17: 965, 1991.
20. Yamuy, J., Mancillas, J.R., Morales, F.R. and Chase M.H. C-fos like expression in the brain stem of cat during carbachol-induced atonia. Soc. Neurosci. Abstr. 17: 468, 1991.
21. Mancillas, J.R. and Defeo, G. Kinesin is required for neuronal morphogenesis, Soc. Neurosci. Abstr. 18: 412, 1992.
22. Patel, N., DeFeo, G, and Mancillas, J.R. Deletion of Kinesin H.C. tail domain selectively disrupts its role in neuronal morphogenesis. Soc. Neurosci. Abstr. 18: 412, 1992
23. Culotti, J., Steven, R., van Weeghel, R., Ruiz, A. and Mancillas J. *Unc-73*, an axon guidance protein of *C. elegans*, has homology to guanine nucleotide exchange factors for rho-type G proteins. Soc. Neurosci. Abstr. 18: 1992
24. Mancillas, J, Duggan, A., and García-Añoveros, J. TRPA1 channel in *Caenorhabditis elegans* sensory and non-neuronal cells Soc. Neurosci. Abstr. 31: 2005
